

## Your Benefits:

- ✓ Strong Aluminum Body
- ✓ Available in 1.5mm and 3.0mm
- ✓ Unique Laser Printed Serial
- ✓ Need Heavy Tools to open

The inotronix cable seals are designed for a maximized security of your products whether during the transport or storage of your goods. Once the cable seal is locked, it can only be opened with heavy tools. This prevents theft of your goods or product piracy.

With the individual and unique serial number you can make sure at the destination that your shipment was not opened during the transport. The serial numbers are laser printed. It is impossible to manipulate the seal without damaging it.

## Applications:

- ✓ Cargo Container
- ✓ Railway Container
- ✓ Swap Body
- ✓ Storage Container
- ✓ POS Product Securing
